About Me

A multidisciplinary designer with **5+ years of experience** turning complex ideas into clear, compelling visuals across **branding, UI/UX, motion, and digital**. At **MaktabiTech**, an AV/IT deep-tech provider serving NEOM, PIF, and government clients, I design the company profile and campaigns that win high-end and VIP business; since I joined, its LinkedIn following has grown **from ~8K to ~12K**. **AI sits at the core of my workflow**, and I've moved into the code side of design to build, not just mock up. My real edge is **adaptability**: reading what any sector needs and delivering the right creative solution for it.
